Notes:

1 Unconfirmed. 2 The milk prices listed above will vary according to the amount of milk that is required by each retailer. Additional milk will be paid for at the conventional liquid milk price of Dairy Farmers of Britain (DFoB) and Dairy Crest (DC) respectively. The milk price above assumes that all litres produced are sold into the dedicated milk pools. 3 Farmers signed up with the Promar costings survey get an additional 0.50ppl. 4 The UDF annual average price is not calculated in the same way as other prices on the league table as it is based on rolling price information – caution should be used in using information for comparison.

Milk prices are ranked according to the annual average price that would be paid on a contract for 12 months going forward if the present price schedule remained the same. Prices listed above are exclusive of: Capital Retentions, Administration Charges, Farmer Group Subscriptions, and VAT, but are inclusive of: DairyCo Levy, Seasonality.
