Each set of prices comes from a single merchant, co-op or broker, and are the latest prices being paid to farmers, not averages.

Ranges of prices within one category of grain from a single source related to the distance of the farm from the buyer and additionally in the case of malting barley, variety and N content. Oilseed rape prices are latest spot and forward prices, not contract prices. Ex farm prices vary with the distance from Hull, Liverpool and Erith, Kent, crushing factories.
